

EURO-LOCKS
LOCKING SYSTEMS FOR INDUSTRY

NO MORE LOST KEYS

Introducing Gemini, the new range of combination locks from Lowe & Fletcher.

Manufactured in the UK to exacting standards, the Gemini is available in either digital or mechanical form. Both versions share the same profile and fixing template, giving maximum flexibility and choice at the point of installation. A truly adaptable solution. This innovative lock range is available in both flush and surface mount form and in a choice of standard or custom colours. The small footprint and option of vertical or horizontal orientation make Gemini the perfect choice for a wide range of applications, including lockers, cabinets and cupboards.
