

EURO-LOCKS
LOCKING SYSTEMS FOR INDUSTRY

A New Generation of Latchlock

INSTITUT NATIONAL
DE LA PROPRIÉTÉ
INDUSTRIELLE

Introducing the innovative new latchlock from Euro-Locks. The latchlock comes complete with a master key so, in case of emergency, the handle can be operated and access gained without cutting or damaging the latch.

- ❖ A well-adapted solution for use in schools and other public areas: no sharp angles
- ❖ Available in a number of different finishes with a wide range of cams and fixing options
- ❖ Left hand and right-hand versions
- ❖ Latchlock handle from Ø 5mm to Ø 7mm
- ❖ An innovative solution – a Euro-Locks France patented system
- ❖ In case of emergency: Handle can be operated without opening the latch using the master key
- ❖ 1 master key: No more cutting of latches if operating key is missing
