

## LOCKS FOR HYGIENE APPLICATIONS: AN EXTENSIVE RANGE OF LOCKING SYSTEMS THAT ARE BUILT FOR SANITATION

From contactless digital locks to mechanical locks, we can keep it safe!

Lowe & Fletcher have an extensive, well established range of locking solutions to suit every hygiene requirement.

Our locks are built to be sustainable in all environments, including wet areas and areas that are subject to heavy chemicals such as cleaners and disinfectants.

We also supply a range of contactless locking solutions, helping to avoid contact with contaminated surfaces. Antibacterial and antimicrobial finishes are available on request.

**As a specialist manufacturer of locking systems, Lowe & Fletcher supply a wide variety of locks and locking solutions for hygiene, sanitation and restroom applications. Our locks increase security and convenience on different equipment in public venues, hospitals, schools, colleges, universities, restaurants, hotels, shopping centers and commercial office environments.**
